# IRISES

*Season of 1935*

## A LIST OF NEW, RARE AND HIGH RATING VARIETIES

Good, strong rhizomes, unexcelled in quality, with a fine root system, will be sent, properly labeled and packed, insuring their starting into vigorous growth when planted. Shipments will be made from about July 1st to November 1st, as customers desire.

All varieties are true to name. Satisfactory adjustments will be made on any proving otherwise.

Prices quoted are prepaid on orders of \$2.00 and over. Under \$2.00, add 25 cents for postage.

**DISCOUNTS** — Except on collections and orders of three for the price of two, which are net, the following discounts are allowed: On orders of three or more varieties totalling \$10.00 to \$25.00 discount 10%; orders of \$25.00 to \$50.00 discount 15%; orders over \$50.00 discount 20%.

**COLLECTIONS** — You will find wholesale values in the collections listed on pages 7 and 8.

# FOUR NEW YELLOWS---1934

The varieties which I have selected as my first introductions are third generation yellow seedlings from Dominion, whose ability to produce yellow off-spring is traceable to the variegata blood in the old variety Black Prince, which in turn is reputed to be one parent of Dominion.

They are the best of eleven seedlings, eight of them yellow, from one seedpod grown in the garden of Mr. and Mrs. George O. Brehm of Seattle who have been hybridizing irises for the past ten years. The mother plant is a seedling (Mme. Cheri x Bruno) and this in turn was pollinated again by Bruno.

Being three-fourths Bruno parentage, it is evident that this sterling variety is the source of the vigor, fine form and substance of these hybrids, while the contribution of Mme. Cheri may be seen in the height, branching and extreme floriferousness of all four.

We are convinced that George Davidson will stand comparison with any of the new yellows so far produced and to give it a wide distribution we are placing same in our Prize Collection No. 8.

To assist those who desire to make a discriminating selection, the following note from the originator is added:

"Although William Carey Jones and Thomas R. Bacon are quite similar, the former has a slightly larger flower, having at the same time a little less regularly formed stem-and-branch system than the latter.

"George Davidson is a rugged variety, the real yellow of the group. Established plants have 42-inch stems with four branches. I do not hesitate to commend this variety to those who desire to add substance, form and vigor in hybridizing. It is the outstanding variety in our garden, Purissima and Depute Nombot excepted.

"Joseph Le Conte is the artist's choice, difficult to describe as to color. A rich suffusion overlays the throat on a deep yellow ground.

"I have given these four seedlings the names of four of the teachers of my boyhood days as a grateful, if belated, acknowledgment of an everlasting debt these many years past due."

## WILLIAM CAREY JONES (Brehm)

An outstanding iris hybridizer and recognized critic writes, unsolicited: "We like your yellow seedling very much. With us it was an ivory yellow of excellent shape and substance, a very attractive flower." Beautiful in mass, and combines well with other colors; vigorous grower; large flowers; height, 40 inches. Does not fade .....\$ 3.50

## THOMAS R. BACON (Brehm)

A refined, well-rounded ivory yellow, similar to William Carey Jones, except for a scarcely perceptible violet gray shading and flush from the tip of the beard. Large flowers in four tiers; vigorous grower; height, 38 inches. Does not fade.....\$ 3.50

## GEORGE DAVIDSON (Brehm)

A cool toned permanent yellow lake self of perfect Bruno form, substance and texture; a yellow which carries well without brassiness. Refined and beautiful; low branched; height, 40 inches. Exceptionally vigorous grower. Does not fade....\$ 7.50

## JOSEPH LE CONTE (Brehm)

Distinctive; indescribable without recourse to a technical palette; a fine flower of yellow carmine or zinc yellow (Winsor and Newton color chart), with a shadowing of violet gray. Height, 38 inches; vigorous grower. Does not fade.....\$ 3.50

Stock of Above Varieties Limited

# VARIETIES

	Price
* <b>ALTA CALIFORNIA</b> (Mitchell)—A new tall, golden yellow, falls faintly bronzed, great form and substance.....	\$ 2.50
<b>ANNE MARIE CAYEUX</b> (Cay.)—Beautiful combination of pink lilac shot with gray and metallic blue on gray, yellow beard.....	1.25
